

Finwell.Health

You enrolled. What comes next?

A few checks can make your coverage easier to use.

1

Confirm the start date

Read your enrollment confirmation. If anything is unclear, contact the plan before assuming coverage has started.

2

Check your cards and care

Keep the right cards ready. Confirm your doctors, pharmacy and prescriptions with your new coverage.

3

Keep useful documents

Save your coverage guide and member-service number. Review notices and bills for errors.

4

Ask for help early

For a denied service or drug, ask about the reason and appeal steps. Follow the deadline on your notice.
